

Achieve your sustainability goals with Armour Wrap

We partnered with one of the largest chilled storage logistics companies to reduce their costs and wastage

Problem

Increasing packaging and warehousing costs slowing the capacity to reach company sustainability goals.

Solution

Implemented high performance nano machine film armour wrap, optimising the pallet wrapping process.

Results

Achieved significant cost savings, allowing for further investment into sustainability and automation.

Cost Savings

33% annual cost reduction

Waste Reduction

35% annual waste reduction

CO2 Reduction

937kg annual CO2 reduction
